About Me

I am M. Thanushek, a passionate and results-driven individual currently pursuing a Higher National Diploma in Computing – Software Engineering. With a strong foundation in software development and a creative edge in UI/UX design, I bring a unique blend of technical and design expertise to every project. I am currently working as a WordPress Developer at Lanka Job Designs, where I specialize in building responsive, user-friendly websites tailored to client needs. My goal is to create seamless digital experiences that combine functionality, performance, and visual appeal. I am highly motivated, eager to learn, and continuously looking for opportunities to grow as a full-stack developer.
